

## Gender equity:

### **7.1.1 Measures initiated by the Institution for the promotion of gender equity during the year.**

Every year there are programs for women self-defence, under the Nirbhaya Kanya yojana. These programs empower the female students to learn different self-defence techniques. Make them stronger mentally and physically. Lectures on self-defence and other related topics are organized. This year due to pandemic situation such an event could not be organized.

Specific facilities are provided in terms of safety and security of the students. CCTV installation done in the campus is one of the methods to ensure security of the students. The hostels are guarded by security throughout day and night.

Counselling cabin is present in the institute. Currently due to pandemic situation the room is not used this year. But the work of counselling is carried out online. The class teachers and subject teachers talk with the defaulter and weak students for any difficulty in academic work. Any other problem is also discussed and the students are helped in every possible way.

Common Rooms is a facility provided in the institute for girls and boys separately. Accessible for them all the time during the college hours.
