69 responses

21. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

69 responses

.

Nothing

Good

No

..

Good

All teaching and learning experience is good

Teachers should help out students more in problem solving process.

1. Incorporate interactive teaching methods (e.g., discussions, group activities, think-pair-share).
2. Utilize technology (e.g., educational apps, multimedia resources).
3. Encourage student participation through incentives (e.g., rewards, recognition).

Teachers needs to be the student and feel the students problem

none

None

Update college AV pc window software

Improve in presenting the ppt

Practical session should be conducted

...ok

Not everyone has the same grasping power, don't make them realize how weak they are. Instead of scolding them, help them and give them strength."

-

Existing is excellent

Institute and faculty help thoroughly for students

Adding more practical work on site, audio visual learning, 3d graphics to learn

Workshops ,hands on

Workshops

Encourage us for extracurricular activities

Identify our strengths and weaknesses

Try to give more examples while teaching

Provision of comfortable seats for architecture students

We need more of practical work as students and connectivity to practical things and how it works

Add more extra activities

Should focus on individual weakness of students

1. Incorporate more interactive, hands-on learning activities.
2. Provide personalized feedback and support for students.
3. Utilize technology to enhance engagement and accessibility.

1. Use flexible teaching methods.
2. Leverage digital tools for engagement.
3. Foster inclusive classrooms.

Would you like more suggestions?

Encourage students to participate in the learning process through group discussions, problem-solving, and hands-on projects.

...

.....

Give more examples while teaching  
Encourage us for extracarricular activities

.

The teacher are looking towards the students works

Needs no improvement

Faculties don't teach us somethings just because they were taught in earlier semesters  
Faculties always talk with us rudely also they give us threats for backlogs  
Faculties always do the partiality between students like promoting the good students and neglecting the bad ones

Nothing else

Good teaching learn new things

I guess we should focus more on how to resolve problems rather than highlighting them in front of others

I guess use of tech products should be allowed from second year itself so that the students will not face problems adapting to them when the time is correct

It was Good

Overall needs to the communication.

To motivate a student when he/she can't focus .understand that students are capable to do their work but with proper advice and suggestions.

Motivate students to participate in extra curricular activities and competition  
Take workshops like model making and other interesting activities to motivate students .

Use more simpler method, give enough time for submissions

Nice

Improve student communication skills

Teachers need to consider all students equally

Give more time for submission

1. More workshops to encourage students for practical training.

No suggestions

Fairness of The Internal Evaluation should be Done properly after that Telling the students about its mistake is must .

More practical knowledge  
Workshops/ seminar

All well.

Need of more site visits and study tours.  
Teachers have good explanation skills .  
Good faculty , supports students

Communication between teacher and student  
Decrease Unnecessary work load  
Focusing on main subjects
