STAKEHOLDER FEEDBACK REPORT

At the close of the academic year, stakeholder feedback was collected via Google Forms, covering a broad spectrum of topics including student attendance, self-assessment, teaching methods, and classroom ambience. Respondents were encouraged to share insights on concept clarity, learning outcomes, and the role of ICT in the teaching-learning process. Participation from each class was ensured with strict confidentiality of student identities, and all faculty members were involved in sharing the feedback. Input was also gathered from recently graduated alumni and internship employers to get a wider perspective.

SCOA emphasizes a student-centered academic approach, and this feedback plays a vital role in refining teaching quality, aligning co-curricular activities with student needs, and enhancing overall academic engagement. Suggestions offered were carefully noted to foster greater interest and participation in the learning process.

Student feedback Analysis: 70–80% of students agreed that the overall ambience of the college is positive and conducive to learning. However, many felt that more focus is needed on technological advancements and more practical exposure through workshops, site visits, and hands-on exercises. Regular maintenance, cleanliness, and better integration of smart classrooms and online resources were also commonly suggested for improvement..

Utilization: Responses indicated an increase in practical knowledge, additional to the increase in site visits. There is an increase in hands-on activities /workshops. Regular Cleanliness and maintenance of classrooms requested by students, instructions to follow the guidelines of cleanliness were issued.

Faculty feedback Analysis: 90% of teachers agreed that college ambience is good, agreed with students' attentiveness, overall teaching methods and system of an institute. 20-30% teachers agreed that there are some improvements needed with respect to the infrastructure of college so that they can deliver better to the institute and to the students.

Utilization: The digital infrastructure was maintained where necessary, necessary arrangements are made for improvement and upgradation of Wi-Fi system.

Employer's feedback Analysis: Over 90% of employers rated SCOA students' performance during practical training as above or significantly above expectations. They appreciated the students' strong design sense, communication, teamwork, ethics, and problem-solving skills, and found the academic input and 120-day training period effective. A few suggested enhancing field execution skills for better industry readiness.

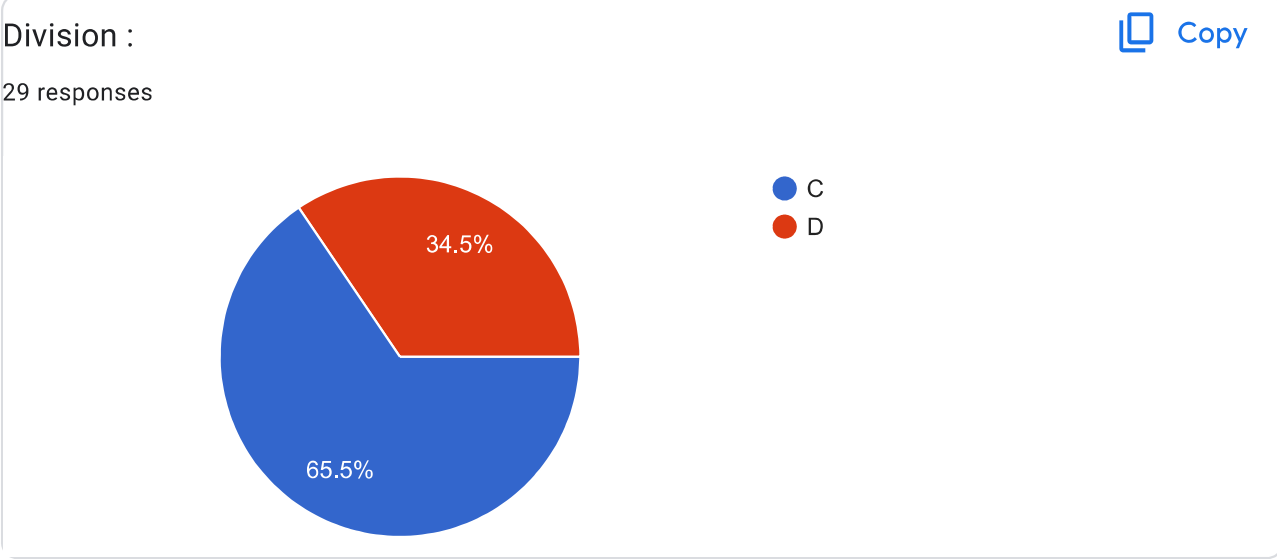

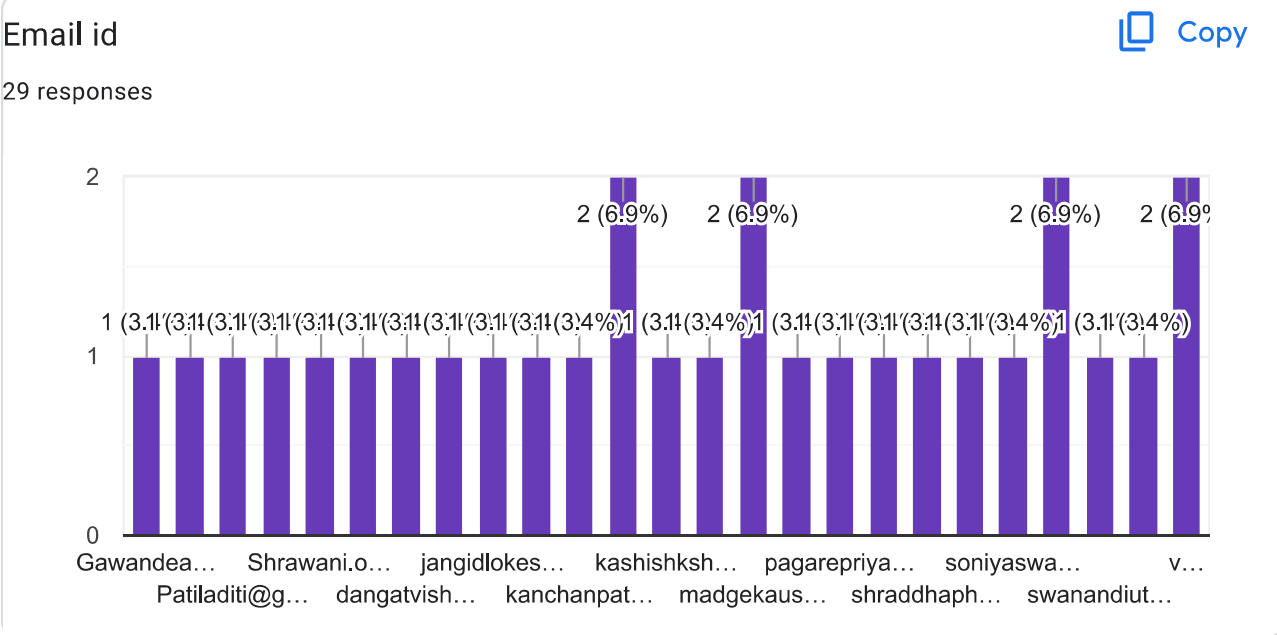

Alumni feedback: Over 90% of alumni appreciated the balanced curriculum, co-curricular activities, and supportive infrastructure at SCOA. They credited their education for developing teamwork, communication, and professional ethics. A few suggested increasing focus on practical, hands-on learning for better industry preparedness.

Utilization: Employers and Alumni are satisfied with curriculum delivery and conduct of academics. Following the suggestions for use of upgraded technology in teaching, new value-added courses will be introduced soon.

My suggestion to increase academic performance and ambience of the institution

18 responses

Wifi should be upgraded in all classes

To improve academic performance, should focus on curriculum modernization, technology integration, and promoting inclusivity and equity to create a more effective and equitable learning environment also need to Invest in college infrastructure to create a conducive learning environment.

More practical approach, with site visits and on field personnel for lectures and studios can be encouraged

Would encourage experienced expertise for studios, juries and practical work also

More site visits and field work will help the academics

Nothing

Required mover Smart room and new upgraded computers

Wifi needs to be enabled at all times and in good speed for smooth working.

Great infrastructure.

Institute should provide the basic facilities ICT like a computer, Internet, printer. It takes an hour to take a printout at comp lab.

Better connectivity and latest tech systems required

NA

More interdisciplinary workshops, seminars, and short-term certificate courses to enhance student learning

NIL

Good going

Good ambience

Need overall upgradation.

More no. Of Group Discussions, hands on workshop and site visits

Criterion I - Alumni feedback

The course curriculum of SPPU with combination of theory and studio was implemented in the college very well.

 Copy

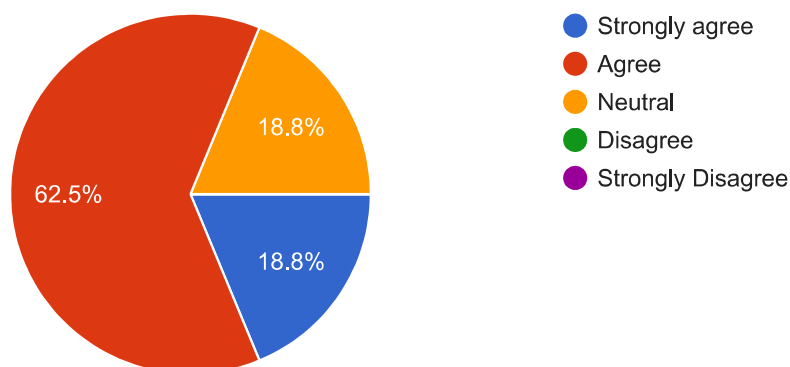

16 responses

Co-curricular activities such as study tours, site visits, hands-on workshop, experts' lectures, jury enhanced my quality of learning experience.

 Copy

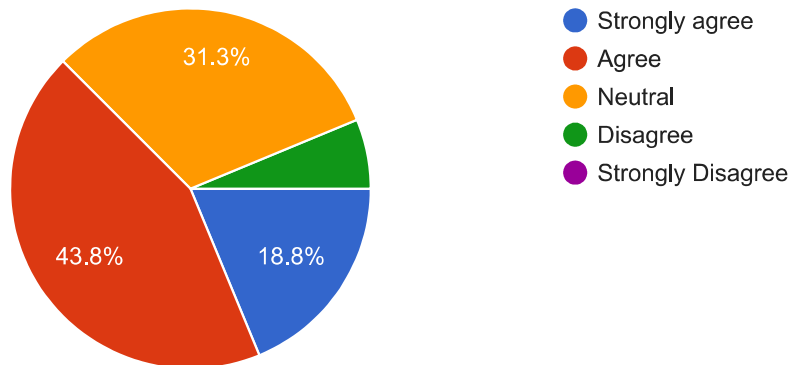

16 responses

Physical infrastructure of college is very supportive to my learning experience.

 Copy

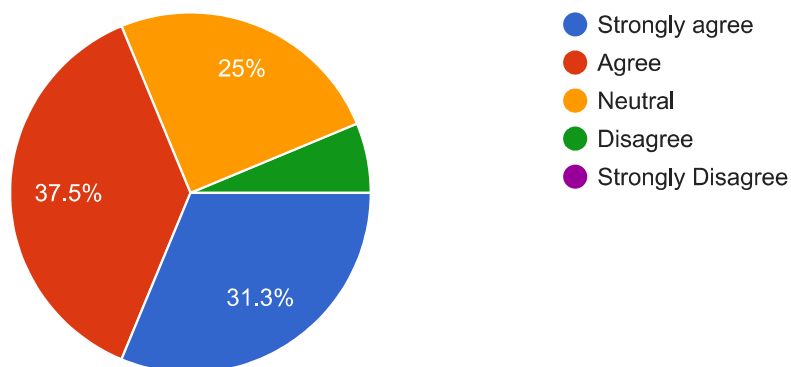

16 responses

Add-on courses conducted in the college helped me in the professional development.

 Copy

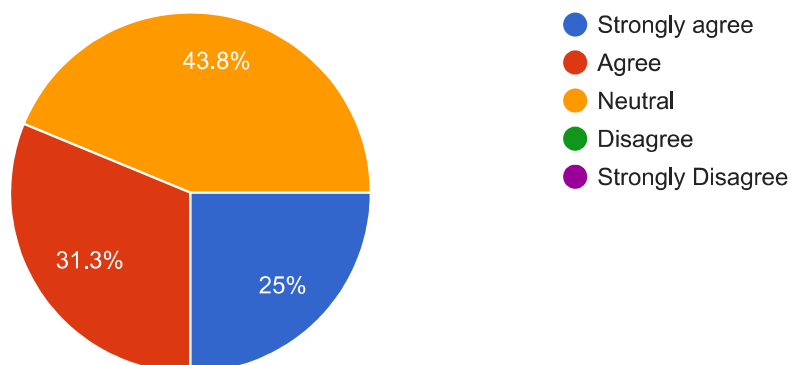

16 responses

ICT (Information and Communications Technology) facilities in college are very good.

 Copy

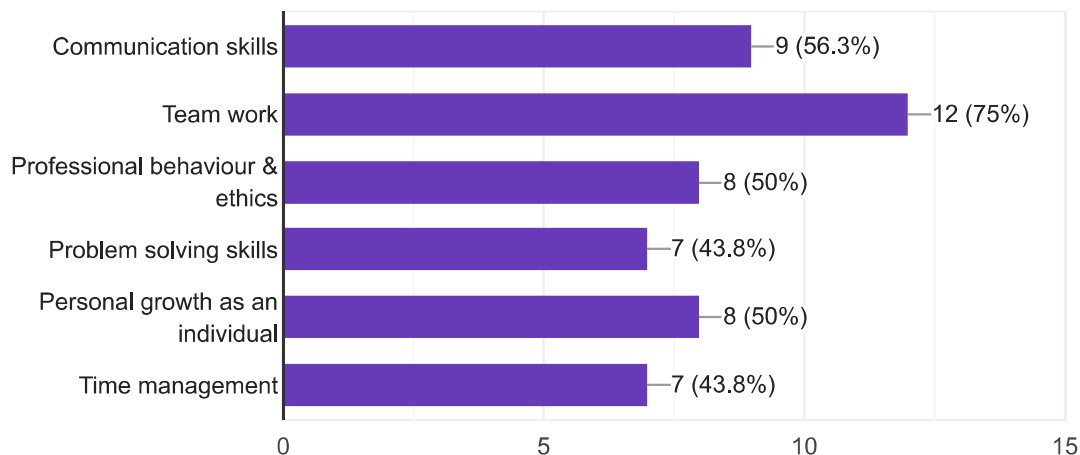

16 responses

My education at SCOA has helped in acquiring life skills such as: (can tick more than one)

16 responses

My suggestion for revision of syllabus to produce efficient architect (write in words)

5 responses

I want the course to be designed in such a way where we focus more on practical experience than theory.

Everything is good.

No

Low credit subjects like professional practice, building services should give more importance along with Design. Need to be more practical based subjects

INSTEAD OF SUBMISSION FOCUS ON PRACTICAL KNOWLEDGE - INCREASED SITE VISITS WITH RESPECTIVE SUBJECT EXPERTISE
